**NUFFIELD RESEARCH PLACEMENTS** are engaging, hands-on research projects, where **Y13** students can make a real and meaningful contribution towards the work of a host organisation. They are a fantastic opportunity for students to apply skills and knowledge learned at school and work alongside researchers and industry professionals. So, if you want to be guided through a well-supervised but independent research project relating to an area of science, quantitative social science, computing, technology, engineering, or maths (or a combination!) - this is your chance! Click on the link for further information.
