Ulster University's Schools Outreach Academy - Study Skills Course

The new "Study Skills" short course is targeted at Year 10 - 14 pupils. This course is designed to help pupils plan for their upcoming exams and teach some revision techniques to aid learning at home. During this short course you will have the opportunity to take part in a number of activities including creating your very own study zone, figuring how your brain works, creating a range of study materials using our free downloadable study pack, learning some recall strategies and how to reduce stress during studying. At the end of this short course, pupils should:

- understand how to plan for exams.
- create a range of materials that will aid revision.
- be able to use recall strategies effectively.
