Deloitte, one of the world's largest professional services firms, are recruiting Year 12 students to join their 3-day virtual Aspire work experience programme in June & July.

The Deloitte Aspire programme offers students a unique opportunity to gain insight into working at a large company, while developing key employability skills and engaging in simulated work experience. Students will receive access to an online platform where they can complete learning modules and chat to mentors from Deloitte, both ahead of and after the programme. Your attendance on this 3 day work experience programme will support your application to:-

Dundalk Institute of Technology (DkIT) is hosting an **On Campus Spring Open Day** on Wednesday 30th March 2022 from 3pm to 7pm. **Pre-booking is required.** Open Days allow potential students, parents and/or guardians to discover the Institute, learn more about going to college, meet lecturers and current students, and find out more about what programmes are on offer and the facilities which exist in DkIT.

Book your ticket now at www.dkit.ie/openday

A 6-week online **Chinese Language Taster** course is being run by the University of Ulster every Thursday from 6.00pm – 7.30pm. The course commences on Thursday 31st March and runs until 19th May (excluding Easter break – 11th to 24th April). This course is also open to the public as well as to pupils and is free of charge. For registration details, please email Mrs Kettle on hkettle080@c2kni.net

Ulster University's Schools Outreach Academy - Study Skills Course

This short course is targeted at Year 10 - 14 pupils. This course is designed to help pupils plan for their upcoming exams and teach some revision techniques to aid learning at home. During this short course you will have the opportunity to take part in a number of activities including creating your very own study zone, figuring how your brain works, creating a range of study materials using our free downloadable study pack, learning some recall strategies and how to reduce stress during studying.

At the end of this short course, pupils should:

- understand how to plan for exams.
- create a range of materials that will aid revision.
- be able to use recall strategies effectively.
