**Cambridge University - Virtual Pre-University Summer Programme** is now open for student bookings. They will be offering two entry points:

**Option 1: Monday 3 July to Friday 14 July 2023**

**Option 2: Monday 24 July to Friday 4 August 2023**

Aimed at 16- to 18-year-olds, this two-week programme provides students from across the globe with an opportunity to explore a wide variety of subjects as they prepare for future undergraduate study at leading universities.

The programme is taught largely through pre-recorded talks delivered by Cambridge academics and invited subject specialists, with the requirement for students to respond, on a daily basis, to many of these talks on a shared student forum. The programme also offers sessions on study skills, careers, and how to apply to a UK University. Live Zoom sessions will also give students the opportunity to talk to current Cambridge undergraduates, as well as the Programme Director, Dr James Grime. The programme provides students with a safe – and affordable – way to experience university-level material, to expand their horizons, and to question their own subject choice and motivation for study at a leading global institution.

Each two-week programme is identical: students' book to study just one option. To find out more please visit the website: [www.ice.cam.ac.uk/pup](http://www.ice.cam.ac.uk/pup)

## LJMU Summer University for Year 13 Pupils

Taking place from 5<sup>th</sup> to the 7<sup>th</sup> of July, this Summer Residential opportunity will be fully funded including flights, accommodation, and meals.

The poster for LJMU Summer University 2023 features a teal background with orange and white decorative elements. At the top left is the LJMU logo. In the top right, an orange circle contains the dates '5<sup>th</sup> - 7<sup>th</sup> July 2023'. The main title 'SUMMER UNIVERSITY' is in large white letters. Below this, a dark blue box says '3 DAYS FREE SUMMER UNIVERSITY RESIDENTIAL for Year 13 Students interested in:'. A list of subjects follows: Animal Behaviour, Biology, Climate Change, Computer Science, Computer Security, Computer Games Development, Environmental Science, Geography, Wildlife Conservation, and Zoology. The poster includes three photos: students in a lab, two students with a microscope, and three students posing. At the bottom left is a QR code and contact information: 'Contact Us: E: Outreach@lmu.ac.uk, W: lmu.ac.uk/outreach, T: @LJMUOutreach, < SCAN TO APPLY'.

The Sentinus Research Academy gives students in Year 13 the opportunity to experience real research and development projects, hosted by local companies and organisations. Taking place from late June to end of August, projects are carried out virtually with some visits to project hosts' sites, where possible, and last 4 weeks. Projects will be supervised and validated by local universities and professional organisations. Subject areas covered by placements include: biomedical science; biochemistry; neuroscience; environmental biology; chemistry; quantitative social science; psychology; geography; engineering; astrophysics; maths; computer science/IT.

## Girls into Electronics event at Queen's University Belfast - 12<sup>th</sup> June

The UKESF is collaborating with Apple this year to deliver [Girls into Electronics](#), which is a series of non-residential events that are being hosted by leading universities across the UK this summer. The events are ideal for girls in Year 11, 12 or 13, thinking about studying Electronics, Computer Science or Engineering. Participants will get the chance to hear from female staff and students at the university, and from female graduates working in the Electronics industry, have a tour of the university's facilities, and also get an introduction to microcontrollers. They can keep the microcontroller kit and get on-line support to complete a range of practical experiments.

The poster features the UK Electronics Skills Foundation logo on the left and the Queen's University Belfast crest on the right. The main text reads: "Girls into Electronics", "Discover Electronics on a one day course at a leading university. A unique opportunity, supported by Apple, for girls aged 15-18.", and "Monday 12 June 2023".

- Hear from women who are working in the Electronics Industry
- Attend a sample lecture, a department tour and meet current students
- Get hands-on with Electronics activities
- Find out about rewarding careers in the Electronics Industry (green energy – artificial intelligence – healthcare – consumer electronics – autonomous & electrical vehicles)

*"The course was so insightful and made me consider a sector which I hadn't necessarily thought about before. It was amazing talking to so many inspirational women from the Electronics Industry."*  
Girls into Electronics attendee 2022

## Year 13 - Sutton Trust Summer School – Applications Open Now

The Sutton Trust Summer School in 2023 will take place from 7th until 11th August. This will involve some online sessions followed by a 3 night residential. The University of Glasgow joins 12 other leading UK universities in partnership with the Sutton Trust to offer a week-long summer school aimed at Year 13 pupils. The summer school provides students with an opportunity to learn more about university life. Successful applicants will attend academic sessions on a variety of subjects and hear from current undergraduate students about what studying at Glasgow is like. The summer school also provides an opportunity to meet other students with similar interests. They offer six different subject streams to match your academic interests: Arts & Humanities, Common Law, Engineering, Life Sciences, Medical Sciences and Social Sciences.
