Health Education England – Virtual Work Experience

Applications for this programme are now open, and they will be open throughout this academic year, with the next virtual work experience day taking place on the **5th November**.

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and each other. Students will have an opportunity to ask questions and gain knowledge through teaching. This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different, and students will be able to build on their knowledge of NHS careers as they see different patient cases and healthcare professionals work in a variety of settings, such as hospital and community.

Students will also receive certificates as evidence of having participated in the work experience programme. Those that complete the entire 6-month programme will be awarded with Highly Commended References too. Students can register individually through the website link below. Places are £10 a day to cover administrative costs and run the tech on the day. You can learn more and register for the programme here:

Ulster University Discovery Academy

The Academy is an outreach platform open to all pupils from Year 8-14, it's free, self-paced and currently has 70+ courses on offer.

Each course is aligned with curriculum, personal development or showcases pathways into university disciplines. The essence of the Academy is to build curiosity and aspirations around future pathways for young people.

Last year UU welcomed 13,000 enrolments from NI schools. into the Academy. The academy allows pupils to explore subjects perhaps that they don't study, it can also be used as curriculum enrichment, a popular one is "Prepping for Uni" for Year 13/14 and 'Study Skills' for Year 10-14, so that the pupils can track their revision.

Pupils receive an Ulster University Certificate for each course completed, alongside the recognition of 'Ulster University Academy Scholar' and their Blazer Recognition Pins. UU advise the pupils to add this for their CV or UCAS application etc.

Please see attached pdf of the latest courses available on the online Discovery Academy at Ulster University.

MOVE, a charity run by Trinity College medical students to raise funds for hospitals in developing nations are hosting their annual HPAT talk in aid of these hospitals, and would like to extend an invitation to any students who are considering sitting the HPAT.

The workshop will contain worked examples, tips, tricks and study advice from some of the highest achieving HPAT students in Ireland. It will be held in Trinity Biomedical Sciences Institute on Saturday the 18th of November at 11am. Each ticket costs €15 (which goes directly to the hospitals), and comes with a 10% discount off the Medentry online or platinum packages for all attendees. Tickets can be bought online on Tito with the link below and in their Instagram bio @tcdmove.

Alternatively, tickets can be bought by scanning the QR code on the poster attached below.

The poster is for an HPAT Seminar. It features a dark blue background with white and red text. At the top left is a stethoscope icon. The main title 'HPAT SEMINAR' is in large white letters on a red background. Below this, it says 'When: 18th of November 11 am!!' and 'Where: Trinity College Dublin'. The price is listed as 'Price: €15!'. There is a QR code and a logo for 'MOVE Medical On Voluntary Education'. A small green starburst says 'Sponsored by Medentry'. At the bottom left, it says 'Online and in Person'.

Includes:

- refreshments
- exam and preparation advice
- sample questions with worked examples
- 10% off Medentry Platinum Package
