Please contact Mrs Magee to book your place at this event.

## **Free National NHS Virtual Work Experience Programme – Applications Now Open**

This month, they are diving into the fascinating world of Surgery, providing students with the opportunity to witness key-hole surgery, oral surgery, and the unique privilege of shadowing Mr. Challocome, a urology surgeon at Guy's and Thomas' NHS Trust. This virtual experience opens doors for students to gain valuable insights and opportunities that may be otherwise difficult to access. Working hand in hand with Birmingham Universities Hospitals Trust, this Virtual Work Experience has been a game-changer for thousands of secondary school students in the past year. It's not just an alternative to in-person shadowing; it's a crucial step in preparing students for their upcoming physical placements.

They have crafted a 6-month medical and 4-month dental e-learning work experience programme that lets students set their own pace. From structured teaching to direct interaction with healthcare professionals, the programme ensures students don't just watch procedures, but also understand the broader roles in the medical and dental fields.

What makes the programme unique is the chance for students to schedule 15-minute one-on-one appointments with a doctor or medical student at no extra cost. This personal touch lets you dive deeper into your virtual experiences, ask questions, and really enhance your understanding.

Covering everything from ethics to procedures and broader team roles, this virtual work experience gives a crucial overview of desired career paths and the skills that medical and dental schools are looking for, enhancing your UCAS applications.

Signing up is easy – you just need to fill out the free online application form below:-

Discovery Workshop  
23rd January 11:00am - 12:00pm  
Apply by 8th January  
Age: 16-19

### Attention Year 13 Pupils!!! - Nuffield Research Placements

The NRP programme provides engaging, hands-on research projects, where Year 13 students have the opportunity to make a meaningful contribution towards the work of a host organisation through a well-supervised but independent research collaboration relating to an area of science, quantitative social science, computing, technology, engineering or maths (or a combination!).

Students can apply via the button below but please make sure you've checked your eligibility requirements

**[Check eligibility requirements here](#)**

#### Which placement?

Students can participate in Research Placements or Experiences. Both offer a rewarding experience for enthusiastic and curious young people.

#### Nuffield Research Placements

Nuffield Research Placements (NRPs) are 2-week collaborations with a STEM-related knowledge expert on a live research question or area of development. While producing a scientific or technical report and poster, this opportunity ensures that students contribute meaningfully to the host organisation's current work.

#### Nuffield Experience Placements

Nuffield Experience Placements (NEPs) are 5-day explorations with industry experts to identify essential skills needed for employment in STEM sectors. While producing a workbook and reflective report, students gain insight into working in professional environments as well as knowledge of the challenges for different sectors, in turn preparing them for employment.
