A Guide to Career Entry Routes

As we begin a new school year, it is a good time to start thinking about the steps that lead into future careers. This *Career Entry Routes* guide (produced by DfE Careers Service) gives an overview of the different qualification pathways available, showing how progression works from Entry Level right through to Level 8. It is designed to support pupils in understanding their options, and is also a very useful resource for parents, giving you insight into the progression routes young people can follow.
