Engineering Virtual Work Experience – Applications Now Open

Secondary school students are invited to take part in this online work experience. The STEPS Programme, Engineers Ireland together with Springpod have created this bespoke experience for secondary school students. Students can register anytime from 15th September 2025 to 18th January 2026 and complete the virtual work experience in their own time. This is entirely free and open to ALL students aged 13 and over on the island of Ireland. This online work experience will focus on various disciplines of engineering and features interviews with Irish engineers who speak about their careers and how they got interested in engineering. The experience will give an overview of engineering and then focus on mechanical, chemical, electrical and civil engineering disciplines.

KPMG - Get Set Degree Apprenticeship – Information Evening – 27th November

KPMG, are delighted to launch the fourth year of their **Get Set Degree Apprenticeship** for KPMG Belfast. This is a unique opportunity for a small number of high performing students that are looking to get into employment after their A Levels and want an alternative to full time study at university, while still getting an honours level degree. The programme will start in September 2026.

Insight Event for students and parents

They are hosting an insight event for students and parents on Thursday 27 November at 7pm to learn more about what it is like to work for KPMG, hear from some of our current apprentices and staff and get their questions answered. Students can find out more information and [register to attend here](#).

For more information on our apprenticeship, please visit www.kpmg.ie/getsetapprenticeship

UNIQ 2026 – Oxford’s Flagship Access Programme Opens in December!

[UNIQ](#), the University of Oxford’s flagship undergraduate access programme, will be back for 2026 with applications opening Monday 15th December. UNIQ is the University of Oxford’s access programme for UK state school students in their first year of further education. They prioritise places for students with good grades from backgrounds that are underrepresented at Oxford and other universities. Every year more students from diverse backgrounds get offered places at Oxford with help from UNIQ. **UNIQ is completely FREE, and offers over a thousand UK state school students in year 13:**

- An exclusive chance to join us at one of our regional events
- A five-day/four-night summer academic residential in Oxford, giving a taster of college and academic life
- Sustained support for those considering applying to Oxford in 2026
- An opportunity to explore subjects that interest them and to experience studying in a university setting
- A chance to get to know current Oxford students and academics and find out if Oxford can help them shape their future
- Extensive and expert support with the Oxford admissions process
- An opportunity to make new friends from across the country

Each year more than a quarter of UNIQ participants who go on to apply to Oxford get offered a place. This is significantly higher than the University’s average offer rate of about one fifth of all applicants. Programme feedback since 2010 clearly shows that UNIQ has an extremely positive effect on participants and their futures, whether they go on to study at Oxford or not.

Applications for UNIQ 2026 open Monday 15th December and close midday on Tuesday 13th January. All applications are made online through a short form which is quick and easy to complete. They accept participants based on their academic attainment alongside their socioeconomic background and educational opportunities. Oxford is strongly committed to diversity and equality and the UNIQ programme plays an important part in diversifying our student body. They are very keen to encourage more students from Northern Ireland to apply to UNIQ - so sign up to their [UNIQ newsletter](#) for more information and reminders when applications open. In the meantime, please visit the [UNIQ website](#) for further details including application criteria, and don’t hesitate to contact them at uniq@admin.ox.ac.uk should you have any questions.
